MIAMI-DADE COUNTY COMMUNITY HOMELESSNESS PLAN

*2023 ALIGNMENT OF PLAN WITH UPDATED PRIORITIES*

Priority Home: *Miami-Dade County Community Homelessness Plan*

## Miami-Dade County Community Homelessness Plan

The Miami-Dade County Community Homelessness Plan: **Priority Home** provides a framework for Miami-Dade County to prevent and end homelessness. This document is an update to the Miami-Dade County Community Homelessness Plan which was first implemented in 1994.

The Homeless Trust is the lead organization for the Continuum of Care, a group identified by the U.S. Department of Housing and Urban Development (HUD) to coordinate the homeless response for Miami-Dade County. The Homeless Trust reviews **Priority Home** annually to ensure continued alignment with **All In**, the Federal strategic plan to prevent and end homelessness, HUD's System Performance Measures (SPMs), HUD's policy priorities contained within the most recent HUD funding competition, and to ensure consistency with local needs. **Priority Home** implementation strategies are updated annually as part of the **Priority Home** review process to ensure the continuum evolves and new gaps and needs are addressed.

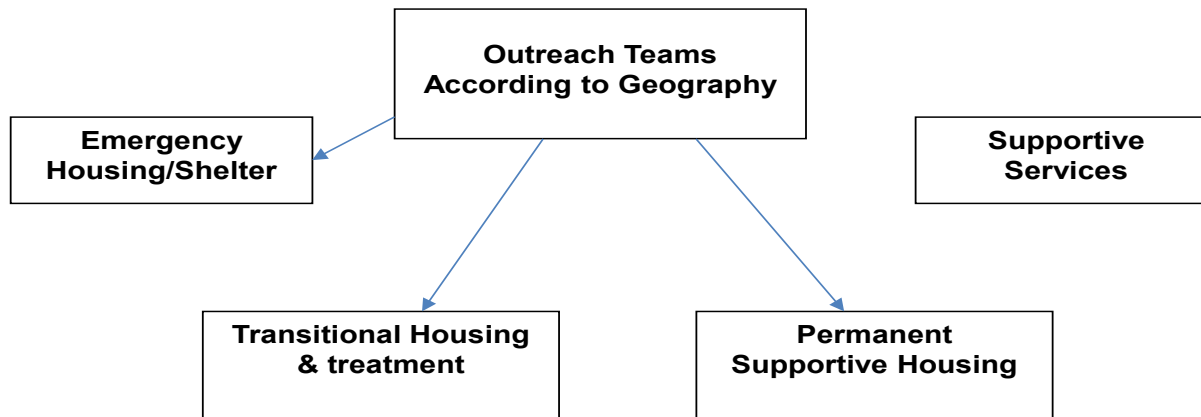

**Priority Home** is an outgrowth of the "Governor's Task Force on Homelessness" which was formed in 1992 to address the issue of homelessness. At that time, in terms of services, there was little to no coordination among providers, no defined leadership on the issue and no plan or approach to address the increasing problem, leverage resources or eliminate duplication. There was limited-to-no involvement by the private sector/business community. A federal lawsuit alleging civil rights violations against the homeless wound its way through the courts, creating further confusion about how to address this issue. The Governor's Task Force recommended three (3) key activities to address the community's needs:

- 1) Pursue a dedicated source of funding/private sector funding
- 2) Create a body with diverse representation to implement plan
- 3) Research best practices to address homelessness and develop goals for implementation

The Governor's Task Force pursued and secured a one-percent Food & Beverage Tax (F&B Tax) on restaurants with sales of more than \$400,000 a year and an alcoholic beverage license. Approved in 1992, the enabling legislation for the Homeless and Domestic Violence F&B Tax, which allocates 15% of the collections for domestic violence programs, became the first dedicated source of funding for homelessness through a tax in the country. Importantly, the F&B Tax would serve as a source of leverage for state, federal and other funding.

The enabling legislation required local legislative action. It also required the development of a plan for the use of the funds prior to approval and collection. A local Homeless Task Force was created which included many of the members of the Governor's Task Force. The result was the creation of the "Dade County Community Homelessness Plan," a continuum of care approach that called for the development of three levels of housing (emergency, transitional and permanent housing), with support services and outreach to engage clients into the system of care.

## Miami-Dade County Community Homeless Plan:

At its essence, the Miami-Dade County Community Homeless Plan was focused around the following six categories:

- Emergency Housing (Crisis Care)
- Transitional Housing (Temporary Intermediate Care)
- Permanent Housing (Advanced Care)
- Coordinated Outreach, Assessment & Placement
- Supportive Services
- Homeless Plan

Specific goals/targets were established for Emergency and Transitional Housing at the time of the Plan's approval, with a Blue Ribbon Task Force on permanent housing establishing goals for permanent housing. The parameters for a coordinated outreach, assessment and placement process were also established, providing for one entry point into the continuum of care.

The Trust Board is responsible for the implementation of the Plan, identifying gaps and needs, coordinating the system of care (including serving as the Collaborative Applicant and HMIS Lead Applicant) and allocating local, state and federal funds to assist the homeless. Its diverse board ensures stakeholder participation which is further ensured through its public, transparent processes.

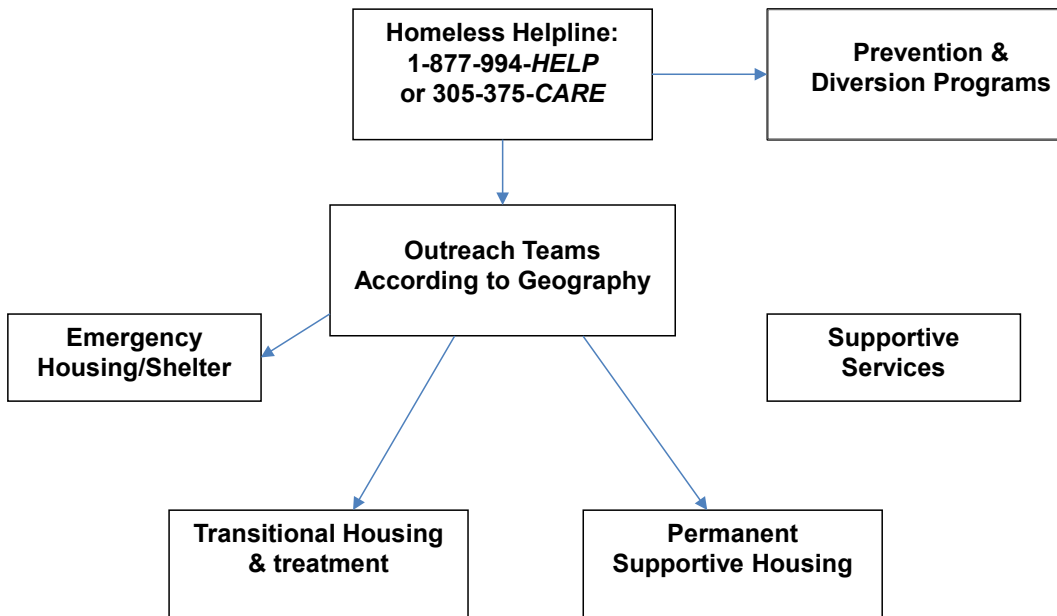

#### MIAMI-DADE COUNTY COMMUNITY HOMELESS PLAN/ADDITIONAL STRATEGIES:

In 2004, a Ten-Year Plan to End Homelessness Additional Strategies to the Miami-Dade County Community Homeless Plan was developed, consistent with U.S. HUD mandates at the time for communities throughout the country, and consistent with U.S. HUD's development of their own Ten-Year Plan. At that time, strategies surrounding Homeless Prevention and Rapid Re-Housing were being implemented, as well as the first of the Housing First models. Enhancements to efforts to assist chronically homeless households were also under development.

The Additional Strategies resulted in nine (9) categories for focus and action, as follows (additions identified in blue):

- Emergency Housing/Transitional Housing/Permanent Housing/**Rapid Re-Housing**
- Coordinated Outreach, Assessment & Placement
- Homeless Prevention and Diversion
- Supportive Services
- **Effective Use of Data**
- **Income through Employment/Benefits**
- **Reduce Length of Homelessness**
- **System Changes to Prevent Homelessness**
- Homeless Plan

Five of the areas for focus were already components of the Miami-Dade County Community Homeless Plan. Additional goals were established for these categories.

#### MIAMI-DADE COUNTY COMMUNITY HOMELESS PLAN: PRIORITY HOME

Since 2004, new U.S. HUD policies and priorities tie federal funding to the implementation of certain approaches and performance expectations. As importantly, the enactment of the federal Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act in 2009 changed how homeless assistance is funded, further making the process data-driven and performance-focused.

In 2013, various Trust Committees and the Trust Board considered and approved additional strategies and initiatives designed to further align local activities with HEARTH-required approaches and assist the continuum of care in meeting U.S. HUD Performance Objectives and U.S. HUD Policy and Program Priorities. As a result of the CoC's own changing focus and priorities in response to the continuum's needs, an additional update was approved during a joint Board retreat in December 2013. The resulting document is called the Miami-Dade County Community Homeless Plan: Priority Home. The Plan continues the core mission and direction of the Miami-Dade County Community Homeless Plan approved in 1994 and updated in 2004, but further aligned and refined the Plan using the following updated categories (additions in blue):

- Emergency/Transitional/Permanent Housing
- Coordinated Outreach, Assessment & Placement
- Homeless Prevention and Diversion
- Supportive Services
- Effective Use of Data
- Governance & Resource Maximization
- Quality Assurance
- Homeless Plan

In 2023, categories further evolved into goals as follows:

- Goal 1: Leverage Emergency, Transitional and Permanent Housing Resource to Achieve Their Best and Highest Use
- Goal 2: Improve Coordinated Entry Access, Assessment and Housing Placement
- Goal 3: Expand Homeless Prevention and Diversion Interventions
- Goal 4: Improve and Expand Support Services
- Goal 5: Advance Data-Driven Decision-Making
- Goal 6: Governance & Resource Maximization
- Goal 7: Ensure Continuous Quality Improvement Strategies for CoC
- Goal 8: Execute on the Plan to End Homelessness

Strategies and objectives are reviewed annually by stakeholders, including the CoC Subcommittee, and made available for public comments. The Plan continues to be aligned with the objectives embedded in All In: The Federal Strategic Plan to Prevent and End

Homelessness, U.S. HUD's System Performance Measures and U.S. HUD Policy Priorities contained within the most recent U.S. HUD CoC Program Competition.
